What is ngVikings?

ngVikings are the series of community-driven events across the Nordic countries. Our talks and workshops will be mostly about Angular and other technologies related to the Angular framework. Our goal is to strengthen the Angular community in the Nordics by bringing it together, while inspiring and learning from each other. Nothing fuels collaboration like meeting in real life.

This year ngVikings event is scheduled for the 1st & 2nd of March in Helsinki, Finland. This event will gather 300+ front-end developers from different Nordic countries together in Helsinki, a capital of Finland.

ngVikings is a 100% community-driven event comprised of many Nordic Angular groups such as:

ngVikings is not about the money

Most ngVikings use up all their sponsor and ticket money in planning the event, but when there is a surplus, it is used to benefit the community and it will not be treated as profit to be pocketed by the organizers.

Surplus money is used for things like:

- Funding an ongoing Angular meetup group's get-togethers
- Seed money for the next ngVikings event
- Donations
